

THE RURAL GENERALIST PROGRAM

MURRAY CITY
COUNTRY COAST
GP TRAINING

The Rural Generalist pathway to Fellowship gives you a fantastic range of career and lifestyle opportunities

CAREER

- ✔ Develop and consolidate special and additional skills both procedural and non-procedural, including added training time
- ✔ Receive quality training and supervision and a supported career pathway with medical specialists from your chosen speciality - both procedural and non-procedural
- ✔ Enjoy continuity of employment from intern year through to Fellowship
- ✔ Benefit from priority practice placement into identified rural practices
- ✔ Admit patients to hospital and manage their ongoing care
- ✔ Gain experience with hospital emergency department duties and responsibilities
- ✔ Participate in medical workforce networking opportunities in your community and beyond

LIFESTYLE

- ✔ Train, work and live in one community
- ✔ Potential to support family members with partner employment and/or subsidised accommodation
- ✔ Enjoy a work-life balance with less time travelling and more time to participate in sporting and leisure activities
- ✔ Easier entry into the housing market with affordable properties
- ✔ Reduce your 10-year moratorium through scaling based on the MMM area
- ✔ Potential for funding under the Workforce Incentives Program (This scheme provides financial benefits, post Fellowship, for CPD and for practicing as a rural GP)

**LIVE AND
WORK**
in a rural or
regional
community
and kick-start
your career as a
GP

“Become an integral part of a community and experience the benefits of rural general practice”
